

# PATIENT'S GUIDE TO BEING REFERRED

INSLEY

DENTAL PRACTICE

## Patient's guide to being referred

You have been referred to the Insley Dental Practice because you need dental treatment which requires specialist skills and equipment. We offer a number of specialist treatments to our own patients and to those of other dentists in the area.

Dr Bayan Al-Kassab is a specialist in oral surgery. He is able to carry out complex extractions and surgical removals, apicectomies, biopsies, place dental implants and offer intravenous sedation for nervous patients.

His skills and expertise, together with our commitment to offering a friendly, understanding and professional service, means that you can relax, safe in the knowledge that you are in the best possible hands.

If you have any questions or concerns, please do either give us a call, or ask about them during your initial consultation appointment, we'll be happy to help.

## Specialist fee guide

This price guide has been put together to give you an idea of our fees. It is, however, only intended as a guide – it is difficult to be more accurate because the time a procedure takes and the materials we use will vary from one patient to another. Before starting on any treatment, we will explain and discuss the range of options open to you, and help you decide which is best suited to you. Based on your decision, we will then provide you with a full quotation. If you have any questions about our fees, please feel free to ask, we will be happy to help.

Assessment diagnosis and advice	£60.00
Difficult extractions, surgical extractions and buried roots	£250.00
Impacted 3rd molar surgery	£250.00
Apicectomies (anterior)	£195.00
Apicectomies (posterior)	£230.00
Treatment under IV sedation	from £200.00

### Dental implants

Free 20 minute initial implant consultation	
Implant assessment including all x-rays	£180.00
Implant placement	from £1,700.00
Implant restoration crown	from £650.00

We can manage medically compromised patients and provide help with diagnosis of abnormal lesions, biopsies and histology.

## What to expect when you visit us

If this is the first time that you have been referred to a specialist, it is difficult to know what to expect – but don't worry, we are here to help you to feel comfortable and relaxed about your treatment, and to ensure you receive the best possible care and results. Dr Al-Kassab's clinical skills are complimented by a friendly, relaxed manner. He has been a Hospital Practitioner in Oral Surgery at Macclesfield General Hospital since 1994 and has held posts at several Oral and Maxillofacial clinics across the North West since 1988.

## Your initial consultation

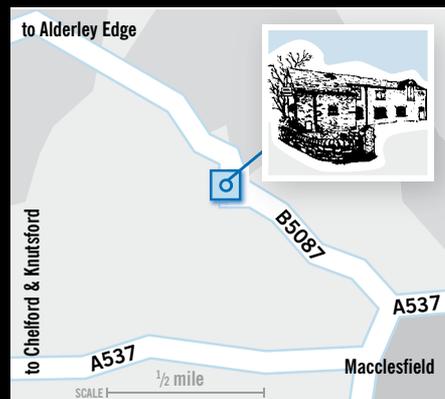

This is our chance to get to know you a little more, and to assess your dental needs by examining your teeth and mouth. We will explain your treatment plan to you, so you can make an informed decision. This appointment also gives you the opportunity to meet with us before your treatment, to find out more about us and how we plan to help you, and to ask any questions or voice any concerns you may have. We follow this appointment with a written treatment plan, which explains the treatment we will carry out, and what the cost will be. A copy of this is sent to your own dentist. Once your treatment is complete you will be referred back to your own dentist for any future treatment.

## Parking and disabled access

There is ample free parking in our courtyard. We can provide access for people with disabilities and have two ground floor surgeries.

## Payment options

To help you budget for your treatment, we offer an interest-free payment plan, please ask at reception for more details.
